

i Fuge M08

Smart Personal Micro Centrifuge

8 x 1.5/2 ml - 6000 rpm

- ◆ Unique closed rotor design for reduced friction
- ◆ Robust construction for long life - Next gen design with digital display
- ◆ Electronic brake for convenient quick spins with lid operation
- ◆ Extremely silent operation

i Fuge BL08VT

Smart Personal Centrifuge (BLDC)

8 x 1.5/2 ml - Max 6000 rpm

- ◆ Maintenance free BLDC motor for long life
- ◆ Variable speed and time with digital display
- ◆ First in category with accuracy up to ± 25 rpm even at varying loads
- ◆ Microprocessor controlled with sensor based imbalance detection

i Fuge M12P/M18P

High Speed Micro Centrifuge

12/18 Tubes Max 15000 rpm

- ◆ Delivers high g force - 18 place rotor capacity
- ◆ Large back-lit LCD display & intuitive interface
- ◆ USB remote operation - run via computer & save run records
- ◆ Two shell metal enclosure with lid lock safety

i Fuge D06

Clinical / Doctor Centrifuge

6 x 15 ml - Max 6500 rpm

- ◆ Brushless DC motor for maintenance free long life
- ◆ 6 x 10/15 ml fixed angle rotor - upto 3684 x g
- ◆ Adaptors for all standard blood collection tubes
- ◆ Auto imbalance detection and Lid lock safety
- ◆ Microprocessor controlled with large digital display

i Swix / Swix VT

Vortex Mixer

Max 4200 rpm

- ◆ Maintenance free Brushless DC motor
- ◆ Orbital diameter of 4 mm
- ◆ Delivers set speed even under varying load condition
- ◆ Programmable pulse mode (VT)
- ◆ Optional attachments for micro plates, tubes and flask

i Swix Jr. / Swix Jr. VT

Mini Vortex Mixer

Max 4500 rpm

- ◆ Maintenance free Brushless DC motor
- ◆ Powerful vortexer - delivers upto 4500 rpm
- ◆ Orbital diameter of 4.5 mm
- ◆ Small footprint - die cast base for stable operation
- ◆ Unique suspension design for longer life
